Conversations with Hunter S. Thompson-Hunter S. Thompson 2008 In 1971, the outlandish originator of gonzo journalism, Hunter S. Thompson (1937-2005) commandeered the international literary limelight with his best-selling, comic masterpiece Fear and Loathing in Las Vegas. Following his 1966 debut Hell's Angels, Thompson displayed an uncanny flair for inserting himself into the epicenter of major sociopolitical events of our generation. His audacious, satirical, ranting screeds on American culture have been widely read and admired. Whether in books, essays, or collections of his correspondence, his raging and incisive voice and writing style are unmistakable. Conversations with Hunter S. Thompson is the first compilation of selected personal interviews that traces the trajectory of his prolific and much-publicized career. These engaging exchanges reveal Thompson's determination, self-indulgence, energy, outrageous wit, ire, and passions as he discusses his life and work. Beef Torrey is the editor of Conversations with Thomas McGuane and co-editor of the forthcoming Jim Harrison: A Comprehensive Bibliography. Kevin Simonson has been published in SPIN, Rolling Stone, Village Voice, and Hustler.

Paul Simon-Robert Hilburn 2019-05-28 Acclaimed music writer Robert Hilburn’s “epic” and “definitive” (Rolling Stone) biography of music icon Paul Simon, written with Simon’s full participation—but without his editorial control—that “reminds us how titanic this musician is” (The Washington Post). For more than fifty years, Paul Simon has spoken to us in songs about alienation, doubt, resilience, and empathy in ways that have established him as one of the most beloved artists in American pop music history. Songs like “The Sound of Silence,” “Bridge Over Troubled Water,” “Still Crazy After All These Years,” and “Graceland” have moved beyond the sales charts and into our cultural consciousness. But Simon is a deeply private person who has said he will not write an autobiography or talk to biographers. Finally, however, he has opened up for Robert Hilburn—for more than one hundred hours of interviews—in this “brilliant and entertaining portrait of Simon that will likely be the definitive biography” (Publishers Weekly, starred review). Over the course of three years, Hilburn conducted in-depth interviews with scores of Paul Simon’s friends, family, colleagues, and others—including ex-wives Carrie Fisher and Peggy Harper, who spoke for the first time—and even penetrated the inner circle of Simon’s long-reclusive muse, Kathy Chitty. The result is a deeply human account of the challenges and sacrifices of a life in music at the highest level. In the process, Hilburn documents Simon’s search for artistry and his constant struggle to protect that artistry against distractions—fame, marriage, divorce, drugs, record company interference, rejection, and insecurity—that have derailed so many great pop figures. "As engaging as a lively American tune" (People), Paul Simon is a “straight-shooting tour de force...that does thorough justice to this American prophet and pop star” (USA TODAY, four out of four stars). “Read it if you like Simon; read it if you want to discover how talent unfolds itself” (Stephen King).

Gender Equality-Linda C. McClain 2009-07-31 Examines the persisting inequality between formal commitments to gender equality and equal citizenship.

Fire in the Hole-Colleen Kelli 2010-03-10 Fire in the Hole is the comically dramatic story of a thirty-something actress facing serious changes in her life while training to become a stuntwoman at a quirky western theme park. Over the course of a year, she divorces her lesbian partner of eight years and loses her sister to suicide. A move from the frenzied urban sprawl of Los Angeles to the tranquil desert of Albuquerque does not improve her spirits, but it does allow her to continue her acting career...at the small-time theme park. Oddly, the misfits she works with at the theme park and even a few of the regular customers become somewhat of a dysfunctional, yet much-needed, family. While learning to fall from a two-story roof and harmlessly kick a man in the groin, she struggles to survive the rockiest and most emotional year of her life. Between Feminism and Psychoanalysis-Teresa Brennan 2002-03-11 In this landmark collection of original essays, outstanding feminist critics in Britain, France, and the United States present new perspectives on feminism and psychoanalysis, opening out deadlocked debates. The discussion ranges widely, with contributions from feminists identified with different, often opposed views on psychoanalytic criticism. The contributors reassess the history of Lacanian psychoanalysis and feminism, and explore the significance of its institutional context. They write against the received views on ‘French feminism’ and essentialism. A remarkable restatement of current positions within psychoanalysis and feminism, the volume as a whole will change the terms of existing debates, and make its arguments and concerns more generally accessible.

Coercive Treatment in Psychiatry-Thomas W. Kallert 2011-03-25 Coercion is one of the most fascinating and controversial subjects in psychiatry. It is a highly sensitive, and hotly debated topic in which clinical practice, ethics, the law and public policy converge. This book considers coercion within the healing and ethical framework of therapeutic relationships and partnerships at all levels, and addresses the universal problem of how to balance safety versus autonomy when dealing with psychiatric treatment. Coercive Treatment in Psychiatry is a much needed contribution to the literature. The first three sections deal with the conceptual and clinical aspects of coercive treatment, the legal aspects and the ethical aspects of coercive treatment. In detail, these sections cover a broad spectrum of issues: coercion in institutions and in the community, coercive treatment and stigma, the definition of best practice standards for coercive treatment, de-escalation of risk situations, recent developments in mental health legislation, mental health care and patients’ rights, cross-cultural perspectives on coercive treatment, historical injustice in psychiatry, and paternalism in mental health. The fourth section features users’ views on coercive treatment: giving voice to an often-unheeded population. Finally, the book addresses the original topic of coercion and undue influence in decisions to participate in psychiatric research. This book presents the first comprehensive review of the issue of coercion in psychiatry. With chapters written by the leading experts in the field, many of whom are renowned as clear thinkers and experienced clinicians, it may be seen as a starting point for international discussions and initiatives in this field aiming to minimize coercion. Highly Commended in the Psychiatry section of the 2012 BMA Book Awards.
